WITHNELL URBAN DISTRICT COUNCIL.

MEDICAL OFFICER OF HEALTH'S

REPORT 1966.

;

WITHNELL URBAN DISTRICT COUNCIL.

ANNUAL REPORT.

To the Chairman and Members of the Withnell Urban District Council.

Mr. Chairman and Members,

I have pleasure in presenting the Annual Report on the health and sanitary circumstances of the District for the year ended 31st. December 1966.

The population of the District at Mid-June 1966 was 2,760, according to the Registrar General's estimate, which is 20 fewer than the figure for the previous year. As mentioned in previous Annual Reports, these estimates showing a decreasing population for the District hardly seem realistic in view of the considerable amount of development which has taken place in recent years.

The number of live births assignable to the District during 1966 was 58, which is 22 more than in the previous year and gives a birth rate of 21.0 (adjusted 25.8) per 1,000 population. These are the highest figures for the District for a considerable number of years. The birth rates for England and Wales and the County of Lancaster were 17.7 and 17.86 (adjusted 18.21) respectively.

The number of deaths assigned to the District was 50 which is 1 more than in the previous year. Of these 50 deaths, 16 were of persons 75 years of age and over and 12 were between 65 and 75 years of age. The death rate for the District was 18.1 (adjusted 14.1) per 1,000 population. The death rates for England and Wales and Lancashire were 11.7 and 12.73 (adjusted 13.49) respectively.

The Registrar General has provided a table giving the causes of death in age groups and this table is reproduced in the Report. Comparing the causes of death with those in the previous year it is found that the number of deaths from malignant diseases at 10 is 2 more and deaths from heart diseases numbering 11 are 5 fewer. Vascular lesions of the nervous system (strokes) accounted for 6 deaths which is a decrease of 3 on the previous year's figure and other circulatory diseases was the cause of 7 deaths in 1966 as compared with 5 in 1965. Pneumonia was the cause of 4 deaths in the past year

as compared with only 1 in the previous year but bronchitis accounted for 1 in 1966 and 4 in 1965. There was, as in the previous year, one death attributed to respiratory tuberculosis, but none to other forms of tuberculosis from which there was one death in 1965. The death from respiratory tuberculosis was that of a person over 65 years of age.

Unfortunately during the past year there were two deaths of infants under one year of age. These are the first such deaths since 1962. There were no deaths arising from childbirth.

There was only one notification of infectious disease during 1966, that being of a case of respiratory tuberculosis. In the previous year there were 26 notifications comprising 23 of measles and 3 of scarlet fever.

Environmental health has continued to be of importance in two major directions.

Water is still a problem and despite the improvements in the previous year, mainly because the borehole which made a good start has started to fail in supply slowly, consequently serious consideration has been given to the provision of an automated and improved system with a greatly increased capacity.

Sewerage and Sewage disposal is still under consideration, but following discussions and agreements with the various bodies involved, it was resolved to proceed with a comprehensive scheme and temporary alterations were carried out at Brinscall to enable house building to proceed at a planned rate.

Improvement Grants have continued to be in demand, further improving the housing facilities in the district, together with an increase of 44 new properties.

In conclusion I wish to express my sincere thanks to the Chairman and Members for the kindly consideration afforded to Dr. Doherty and myself at all times. My thanks are also due to Mr. Grimes, Clerk of the Council and to Mr. Carr, Public Health Inspector and Surveyor and the Council Staff for their willing co-operation at all times.

I remain,

Your obedient servant

J. WALKER.

Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

SECTION A.

The area of the District is 4,190 acres. The population figure at the 1961 Census was 2,849. For 1966 the Registrar General calculated the population as 2,760. The Rateable Value was £82,814 and a penny rate produced £311.

The Chief industries are Paper Making, Quarrying, Saw Mills and Cotton Mills. There has been no change in social conditions.

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

Medical Officer of Health. - Dr. J. Walker M.B.,C.H.B.,L.D.S.,D.P.H.,D.P.D.

Other Public Appointments.

M.O.H.	Chorley Borough
M.O.H.	Leyland U.D.C.
M.O.H.	Longridge U.D.C.
M.O.H.	Preston R.D.C.
M.O.H.	Chorley R.D.C.
M.O.H.	Adlington U.D.C.
M.O.H.	Fulwood U.D.C.
M.O.H.	Walton-le-Dale U.D.C.

Divisional Medical Officer to the Health Division No.4,  
Lancashire County Council.

HEALTH INSPECTOR. Cecil Hilary Carr.  
A Part time Officer holding the appointment as Surveyor.

LABORATORY SERVICES.

The Public Health Laboratory Preston, is available for the examination of specimens for the diagnosis of cases of infectious disease and for pathological specimens for ordinary disease.  
Similar use of this laboratory is made for the bacteriological examination of samples of milk,water and ice-cream etc.

CHEST CLINIC. The Chest Clinic is at Chorley & District Hospital.  
This clinic is a consultant clinic for all chest conditions.

VENEREAL DISEASE CLINIC.

Held at Preston Royal Infirmary, Blackburn Royal Infirmary, and the Diagnostic Clinic, Civic Centre, Bolton, and the Wigan Royal Infirmary.

HOSPITAL FACILITIES.

Chorley & District Hospital.  
Eaves Lane Hospital, Chorley.  
Preston Royal Infirmary.  
Blackburn Royal Infirmary.  
Sharoe Green Hospital, Preston.  
Isolation Hospital, Deepdale, Preston.  
Heath Charnock Hospital.  
All administered by the appropriate Hospital Management Committees under the Manchester Regional Board.

## COUNTY HEALTH AND WELFARE SERVICES.

These services are administered by the Lancashire County Council.

### AMBULANCE FACILITIES.

The County Ambulance Service is radio-controlled and all non-urgent requests for the service are made to Radio Control Headquarters. (Tel. Broughton 2678) The nearest ambulance station is in Preston Street Chorley.

### MIDWIFERY AND NURSING IN THE HOME.

There was no resident midwifery sister in the district but the service was maintained from adjacent areas. A district nursing sister took up residence in the district early in the year.

### TREATMENT CLINIC FOR SCHOOLCHILDREN.

The 'Minor Ailment' clinic is held at Collison Avenue Chorley. Ancillary School Clinics (Orthopaedic, Dental and Eye etc.) are held at Chorley and attended by Practitioners of Specialist Status. Attendance by appointment via School Medical Staff.

### Ante Natal Clinics and Post Natal Clinics.

These Clinics are held on Thursdays at Collison Avenue, Chorley. They are attended by a Consultant obstetrician.

### Maternity Beds.

Normal accommodation is available at Chorley District Hospital and Eaves Lane Hospital Chorley. Other Hospitals are also available.

### Child Welfare.

A child welfare clinic is held fortnightly (Tuesday 2-4p.m.) at the Withnell Conservative Club, and is attended by a Medical Officer of the Lancashire County Council, as well as the County Health Visitor. Ministry of Health Welfare Foods and other proprietary baby foods may be obtained from this clinic.

### Health Visitors.

The County's Health Visitor for the area is Nurse Lamb who is available to give advice on all the County Health and Welfare Services.

### Home Helps.

A Home Help Service in cases of sickness, Maternity and Old Age is available in the area. Application for Home Helps should be made to the Divisional Medical Officer, 55, Victoria Road, Fulwood, Preston.  
(Telephone Preston 77263.)

### TUBERCULOSIS.

The number of persons on the Tuberculosis Register at the end of the year was.

<u>Types of Tuberculosis.</u>	1966	1965	1964	1963	1962	1961	1960
Respiratory	8	8	7	15	15	16	16
Non Respiratory	1	1	1	NIL	NIL	1	1

HOSPITAL ACCOMODATION.

Infectious Diseases are admitted to the Hospital at Deepdale when necessary.

Smallpox cases - there were none - would have been admitted to the Ainsworth Hospital at Bury.

Notifiable Disease. TOTAL CASES NOTIFIED.

## Drainage and Sewerage.

There are two Sewerage Works with settlement tanks and sprinklers, one at Brinscall, one at Withnell Fold, and one with settlement and contact beds only at Abbey Village. All of these works are unsatisfactory in various ways, by far the worst being Abbey Village. The whole sewerage scheme is being examined to determine the most economical and suitable comprehensive scheme for disposal throughout the district.

## Closet Accomodation at the end of 1965.

Privy Middens	Nil
Pail Closets	26
Dry Ashpits	Nil
Moveable Ashbins	1,066
Waste Water Closets	16
Fresh Water Closets	1,144
Houses on Water	
Carriage System	1,079

## Public Cleansing.

The collection and disposal of house refuse was carried out weekly by the Council. The refuse was collected by motor lorry and disposed of by controlled tipping at Ollerton Fold.

## Sanitary Inspection.

The number of inspections for nuisances and for defects during the year was 412 and 73 found to be defective, 10 informal notices were served, there were no legal proceedings. 42 defects were abated at the year end.

## PEST CONTROL.

No infestations of insects were found, although the old houses of all the new tenants of Council houses were inspected. Tenants who are apt to become lethargic are visited regularly and encouraged to keep their houses clean and tidy.

One of the sewerage attendants acts part-time as pest officer. His work is summarised as follows.

	Non-agricultural.	Agricultural
No. of properties in district	1203	43
Total number of properties (including nearby premises) inspected following notification	30	-
No. infested by rats	24	-
mice	2	-
Total number of properties inspected for rats and /or mice for reasons other than notification	4	--
No. infested by - rats	2	-
mice	2	-

No sewers were infested by rats during the year.

# INSPECTION AND SUPERVISION OF FOOD.

## Meat and Other Foods.

7 Shops are registered as selling meat. Meat is brought direct as there is no private slaughterhouse in the district. Tinned meat, fruit and vegetables were inspected and in cases where necessary, were voluntarily surrendered for condemnation. No statutory action was necessary. All food premises were inspected.

## CONDEMNED FOODS.

<u>Foods.</u>	<u>Quantity.</u>
Extract of Malt with Cod Liver Oil.	21b. -

" " Peaches	7lb. 4oz.
" " P.L. Meat	1lb. 6oz.
" Glenryck Pilchards	5 $\frac{1}{2}$ oz.

#### Ice Cream.

All ice cream sold is pre-packed. No samples of ice cream were taken for analysis under the Ice Cream (Heat Treatment) Regulation. Visits were paid to the 21 shops registered for selling ice cream.

#### POULTRY INSPECTION.

There are no poultry processing premises within the district.

#### Food Hygiene (Gen.) Reg. 1960

1. No. of food premises.	42
2. No. of premises fitted to comply with Reg. 16.	42
3. No. of premises to which Reg. 19 provision of sink applies	10
4. No. of premises fitted to comply with Reg. 19.	10

## Water Supply.

The supply is obtained for the Liverpool Corporation Waterworks Undertaking from Withnell Reservoir (upland surface water) and from a borehole on Railway Road, Withnell.

1042 Dwelling houses and an estimated population of approximately 3,000 persons are supplied with this water.

22 Bacteriological examinations of water were carried out during the year of which 20 were satisfactory and 2 were unsatisfactory. The unsatisfactory reports were followed up and were found to be due to fluctuation in chlorination due to heavy rains and minor defects in the chlorinator.

The high acidity of the water obtained from Liverpool Corporation gives rise to plumbo solvency of quite a high degree and adjustment of the Ph level of the water which is approximately 6, to approximately 7.2 has removed this problem.

The water from the borehole on Railway Road is pumped direct to mains as this water is slightly alkaline and contains few suspended solids.

## SCHOOLS.

The total number of schools in the district at the end of 1965 was 5.

Sanitary Conditions of schools at the end of the year:-

- |   |                                    |
|---|------------------------------------|

| (1) washing.           NIL  | (2) Drinking           NIL.        |

## School Meals.

Dining facilities and washing facilities are improving gradually in the schools throughout the district.

## HOUSING AND HOUSING CONDITIONS.

44 New properties were built at Dick Lane, Withnell Fold, Gerrards Fold, Bury Lane and School Lane.

No Council houses were built during the year.

352 Inspections were made for housing defects. Several unfit houses have been improved by various amounts ranging from internal water closet to full bathrooms thus reducing the need for the provision of extra Council houses.

There are still 2 occupied back-to-back houses, 2 obstructive buildings, 26 houses with pail closets and 16 houses with waste water closets in the district. Owners of houses with pail closets are being pressed to convert to a waterbourne system.

There are no back-to-earth houses, underground rooms, common lodging houses or canal boats, used for human habitation. All houses have an internal water supply and separate closet accomodation.

There is very little overcrowding in houses, except where married sons and daughters cannot find homes of their own.

There are 6 private housing schemes in operation within the district.

Factories and Workshops.

There are 24 Mechanical Factories and 2 non-mechanical factories in the district. 35 Inspections were carried out.

Swimming Baths & Pool.

The Council own the Brinscall Swimming Pool, which is 75' by 25' 5 Slipper Baths and 1 steam bath available. Separate water closets are provided for each sex. Bathers have to use the spray baths before entering the swimming pool. The water is drawn from the public main, heated by an oil fired boiler, circulated once in 6 hours through 3 pressure sand filters and treated with sodium carbonate and chlorine. Samples are taken twice daily to ensure that the water has been adequately chlorinated. 2 Bacteriological examinations were taken, both satisfactory. 1 Chemical analysis was taken and found to be satisfactory. Repairs were carried out to the boiler and pump.

The liberal use of Vanodine together with regular foot inspections have almost completely eradicated outbreaks of verrucae.

Vaccination and Immunisation.

Smallpox Vaccinations	32 Complete Vaccinations. 7 Revaccinations.
Polio Vaccinations	89 Oral (Complete Vacc.3 doses) 249 Reinforcement of Oral Vaccinations.
Children Immunised against Diphtheria	46
" " " Whooping Cough.	42
" " " Tetanus	46
" " " Diphtheria (Reinforcement)	65
" " " Whooping Cough	" Nil
" " " Tetanus	" 65
